Player Movement

Due to the effect of the Covid-19 problem this past couple seasons, and the fact that we basically have not taken on any new members, we are now faced with getting back in the rhythm of replacing players who have moved on for whatever reasons.

We have found that our Senior/Masters group has been affected most of all and will need to make some adjustments in order to maintain the success of our program. Remember that many of these players were around for the conception of our league, and if not for these guys, none of us would be here today.

Most of us are very competitive and are all hoping that “Old Man Time” has forgotten and missed us. But alas, that never seems to happen in the real world. Also, please keep in mind that most of the players in the Senior group, have been playing with you or against you for the past 10 or 20 years.

Johnny Hayton has done a fantastic job of breaking out this division into 2 groups, allowing the many players who still wish to play but are hand cuffed by the “Old Bastard”. This has allowed many players to be comfortable with the play in their group and still enjoy the game.

We will be moving a number of players from the Intermediate group for play in the Senior group starting next week. We ask that all of you remember the Informed Consent Agreement that we all signed agreeing to abide by the organization’s rules and bylaws.

Then afterwards, we obviously will need move some Junior players to fill the holes we just left in the Intermediate group. We hope to accomplish this by the following week.

If we can get this done in this time frame, we should be able to acclimate ourselves with our new team-mates by Christmas.

We are growing a great league here, probably the largest group of senior age hockey players enjoying play in the province. Let’s keep it going.

Thanks fellas, see you at the rink.

Brian Laporte
